The Capital Removal Bill.

The Legislature of this State has fair to fritter its whole time without accomplishing much that will redound to the good of the people. The Capital question is already on hand. The Representatives from the Third district seem determined to rule or ruin. We have never been in favor of making Wheeling the permanent location of the seat of government, but as long as we cannot get a suitable building furnished free to the State, for its use as a Capital building, and as we are in favor of retrenchment and reform, we say, let well enough alone. The present bill before the House, is in the language of the Lincoln orator, "too rotten to eat," and the first and second districts will have a nibble at the bait. Already this Capital question has cost the people of this State hundreds of thousands of dollars, without anything to show for it except high taxes, the present party in power desire what they have promised the people, viz: low taxes and better times, they will say this Capital bill on the table, and will proceed at once to the enactment of wholesome laws and then at the end of the 45 days return home to their constituents, with the welcome plaudits of well done good and faithful servants.

Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills.

These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the progress of medical science.

The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease, and patients afflicted with it recoiled themselves to death without making an effort to escape from a doom which they supposed to be unavoidable. It is now proved, however, that Consumption can be cured, and that it has been cured in a very great number of cases, some of them apparently desperate ones, by Schenck's Pulmonic Syrup alone, and in other cases by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

Dr. Schenck himself, who enjoyed uninterrupted good health for more than forty years, was supposed at one time to be at the very gate of death, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the use of Schenck's medicines, and since his recovery, many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success.

Just directions accompany each, making it not absolutely necessary to personally see Dr. Schenck unless patients have long lungs examined, and for this purpose he is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, when all letters for advice must be addressed.

Schenck's medicines are sold by all druggists.
